

## CEO's Corner

Ajay Prasad

### Are We Innovating Enough Fast Enough to Grow?

Ever since I saw the congratulatory note about the India team crossing 100, I have thought about writing this newsletter to ensure that everyone understands the difficulties of maintaining continued growth to sustain the momentum. We are at a critical juncture as a company where we either grow and become very successful or stagnate and eventually die. I am sharing my thought process so you can see where I am coming from and my suggestions about what everyone can do to ensure growth, not stagnation, of the business.

## Know Your Colleagues

### Rakesh Nandan

I'm a digital marketer with a technology and marketing background. I pursued my B.Tech in IT from SMIT, Sikkim, and an MBA in Marketing from CIMP, Patna. I have worked as a PHP developer for three years and as I/c Marketing for almost five years. Since I was looking for a more challenging role within a fast-paced global organization, I decided to pursue a career in digital marketing and, fortunately, got the opportunity to join Repugen Web Team. My hobbies are reading spiritual books and working out. I am also committed to spiritual practices like prayer and meditation.

### Sidharth Kumar

Born and raised in Patna, Bihar, I Completed my BCA from Magadh University in 2019. I started my career as a Graphic Designer during my college life. After graduation, I was probably planning to move to Delhi, but I received this golden opportunity and joined RepuGen as a UI & UX Designer. I have learned many technical things and soft professional skills here, and still, there's a lot to learn as learning never stops. I am learning, exploring, and enjoying every aspect of my work with this team, as all team members are very supportive. Besides work, I like photography, animations, movies, learning, exploring new things, and more in my free time."

## Work Anniversaries Celebrated
